

The Florida Department of Transportation's Office of Inspector General is looking for a talented professional to join our team in Tallahassee. This position will be reporting to the Performance and Information Technology (PIT) Audit unit. The work conducted by this position includes Information Technology Resource compliance reviews using computer forensic techniques in support of investigations and audits.

As a PIT Team Member, your responsibilities will include, but not limited to:

- Coordinates and conducts defensible data acquisition and analysis using appropriate evidence and computer forensic techniques. Conducts information technology reviews of security incidents. Analyzes supporting evidence, draws logical conclusions and develops appropriate findings and recommendations. Maintains the Office of Inspector General Information Technology Laboratory in operating order and makes recommendations for process, technical and hardware improvements. Maintains current knowledge and proficiency in information technology and computer forensic techniques. When assigned as a team leader by the supervisor, organizes and facilitates the work of other team members to ensure the successful completion of the assignment.
- Uses computer assisted auditing tools and techniques, such as databases, queries, macros, and formulas, to facilitate data extraction and analysis, as well as identify routine monitoring opportunities. Assists in audits involving the assessment of management and systems controls, security, operation systems, and software. As authorized by Section 20.055(5)(c), Florida Statutes, the position incumbent shall have access to any records, data, and other information of the state agency (including confidential and exempt data) necessary to carry out the duties of this position. Maintains current knowledge and proficiency in information technology and data analysis techniques.
- Prepares thorough, complete and accurate documentation of work performed. Prepares oral and written briefings. Prepares Information Technology Resource Review draft and final reports.
- Supports the Office of Inspector General's Computer Security Incident Response Team responsibilities.
